

CREATIVELY CONNECTING WITH NATURE

Acrostic Poem

An acrostic poem is a type of poem where the first letter of each line spells a word, which is the topic of your poem.

I will give an example below, using my garden as my theme:

Grass running softly through my fingers
As I stare at the beautiful blue sky above me.
Rays from the glowing sun feel warm on my skin, as
Distant lavender reaches my nostrils in the breeze.
Enjoyment from the beauty and wonder of
Nature that surrounds me.
